04 What to prepare

The form cannot be saved as a draft, so we recommend preparing the following before you start and completing it in one session.

- 1 Contact name and email**
Every notice goes to this address, which is also used to sign in to “Manage Submission”. Please use an address you check regularly.
- 2 Basic details for each work**
Title (up to 15 words), category, entry group, and an innovation abstract (up to 500 words).
- 3 Inventor list**
Up to seven, in certificate order; student groups include ages.
- 4 Patent details (optional)**
Patent certificate or filing receipt, for additional credit.
- 5 Document files**
JPG, PNG or PDF. All files for one work must total no more than 5 MB.
- 6 Payment method**
Credit card, mobile payment, or bank transfer (remittance).

If your files exceed 5 MB

- Reduce photo resolution — 2,000 px on the long side is plenty.
- Combine several photos into a single PDF.
- Upload videos to a cloud drive or YouTube and paste the link in “Related Links”.

Title length: each Chinese character or English word counts as one word.

05 Step 1 — Booth and contact

Choose a booth and enter your contact details. The email on this page is how we identify your entry later, so please enter it carefully.
